OUR VISION AND GOALS

Introduction

“**GELILA** is a leading Egyptian company exporting fresh produce all over the world. The company was founded in 1985 through the vision of Mr. Fahmy Gelila who aspired to export the highest quality Egyptian produce to the world. The company has seen tremendous growth in the past few years which allowed them to construct a state-of-the-art Packing house in Sadat Industrial city which will further improve the packing capabilities and quality of the company’s products. The company prides itself in delivering high quality products through rigorous processes and workflows that result in vegetables and fruits with delicious taste and world-class appearance”

Vision

“To delight consumers world-wide through healthy, delicious and nutritious fruits & vegetables”

Mission

“Employ best-in-class work processes, build strong and sustainable relationships with our suppliers, resellers and consumers, promote healthy and balanced diets and deliver value to our shareholders and country”

Goals

“The company goals are to continuously improve the internal efficiency of its operations, thus improving quality of the products and delivering value to our stakeholders, while expanding operations to more areas of the agricultural value chain”

Production Capacity

Citrus capacity **500 ton** per day.
Vegetables and fruit capacity **100 ton** per day.
